See More News & Events

**04/6/2012** - **Launching the community site, as in now!**
We just launched the community portion of our site! After many months of developing, testing and thinking (with our amazing friends at HyperTiny), we are finally ready to unleash it! From an air version of pong, to confetti cannon balls, the community site is a gallery of people's projects, classes, lessons that they have developed [...]

**04/5/2012** - **Speaking at MIT Media Lab, Life Long Kindergarden Group!**
On Friday April 6th, I'm thrilled to be speaking at the MIT Media Lab's Lifelong Kindergarden group as part of their lecture series! As the group that gave rise to Scratch, LEGO mindstorms and PicoCricket, and practically invented the "Learning Through Play" game, LLK has always been a big inspiration of mine. For the first time, I [...]

**03/29/2012** - **Ayah Bdeir's TED talk!**
On Monday February 27th, littleBits founder Ayah Bdeir gave a 5 minute talk at TED 2012, Full Spectrum. Ayah ends her talk with this very inspiring quote "We want to encourage a world of creators, of inventors, of contributors because this interactive world is ours!" Check out our latest projects and pictures here [...]

## Welcome to Make: Projects

Make: Projects is a living library for makers, a how-to community hosted by MAKE magazine. Here you can build something from our growing cookbook of projects, tweak existing projects to improve them, share your own step-by-step instructions, discover new ideas and techniques, and learn how to make just about anything. And it's a wiki, so everything is hackable. Connect with the collective smarts of the maker community!

Here's how to get started.

## Hey Makers: Gear up for sharing!

Win a $150 VISA gift certificate!
